Description: With a projected passenger growth of over 50% by 2043 means there is a need to upgrade the Cardiff Central railway station to meet the additional passenger demand whilst enhancing the passenger experience and integrating sustainable travel modes. Cardiff Central Enhancement Programme (CCEP), led by Transport for Wales (TfW) on behalf of the Welsh Government, proposes a series of enhancements at the station to address the following drivers for change: - Alleviate congestion and improve capacity within the station. - Improve user experience and facilities. - Enhance interchange, connectivity, and resilience. The aim of this contract notice is to procure an independent assessment and verification services for CCEP.
